When managers are spread out around the globe, busy executing business strategies or overseeing frontline employees, it can be difficult to take time away for leadership training and development. Yet having great managers who know how to engage, develop, and empower their people effectively is key to your company's future success. That's where SLII® Online comes in. With SLII Online, you have the ability to deliver the essentials of SLII®—the most widely taught leadership model in the world—to a dispersed workforce, frontline leaders, or managers who prefer online learning.
