

Developing Skills and Abilities in Times of Change

PRODUCT OVERVIEW

Adapting to Change Online

We are all exposed to an endless series of changes at work and in our personal lives. On our best days, we are open to change and ready to master it, but frequently changes push us far out of our comfort zones, causing us to become defensive, closed-minded, and afraid.

For individuals across organizations to better respond to change, and even embrace it, they must learn how to navigate through the change. Blanchard's Adapting to Change Online Overview helps individuals learn and practice mindfully marshaling their curiosity, courage, and resilience to adapt to change.

Adapting to Change starts by teaching the fundamental skill of Mindfulness. Once someone can sense their physical and emotional responses to change, they can use simple skills to pause and move forward intentionally. And they can learn to tell themselves a different story about their ability to move toward change. With that foundation in place, the online course teaches learners three more mindsets: Curiosity, Courage, and Resilience.

Taught together, these mindsets and skillsets can help anyone be more agile, more adaptive, and ready to make the most of change.
